

# Custom made textiles for your shop a 7 step process

*All* our textile products are hand printed, by real people, here in the USA. We source both domestic and imported fabrics, depending on the application and availability.

Some of our items are pre-sewn before printing; others are printed then cut & sewn. Either way, you can be guaranteed that we've searched God's good earth to find gorgeous textiles that are beautifully packaged and ready to make you, the independent retailer, serious profit.

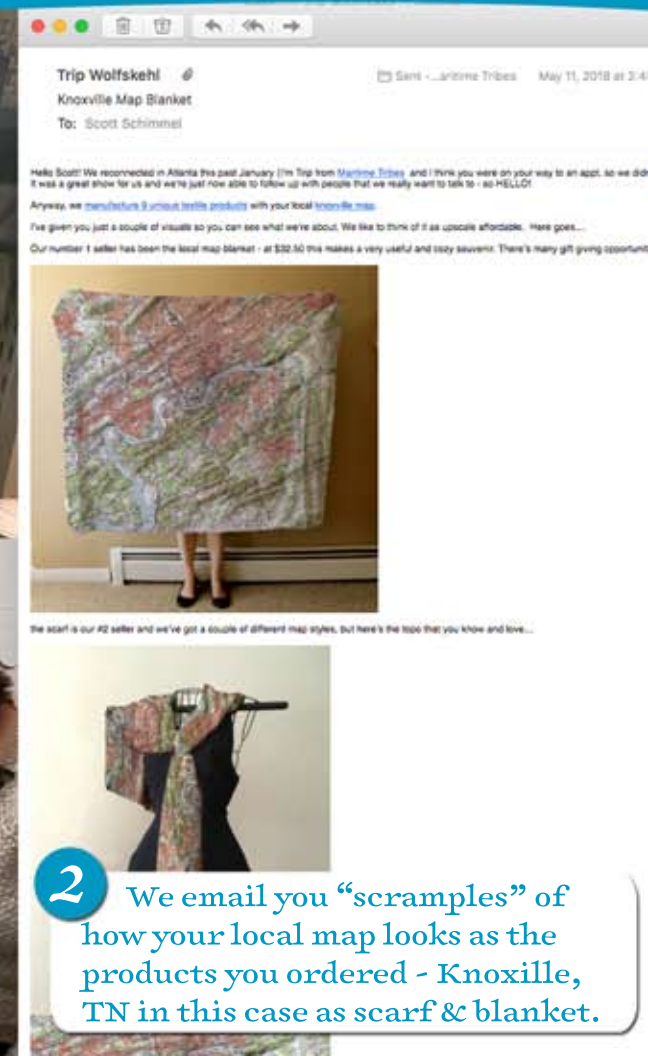

This is how it works:

**1** We create, crop and prep the map for *any town in the world*. In this case, Carleigh is working on Nantucket!

**3** Once approved, we go to print your custom textiles! Emily inspects a Boston soon to be scarf.

**2** We email you "scramples" of how your local map looks as the products you ordered - Knoxville, TN in this case as scarf & blanket.

# Custom made textiles for your shop

## a 7 step process

**4** Brian prefeeds the press and matches the output paper to heat the blanket up to 140° F.

**5** All textiles are closely inspected for quality, softness and color depth, in this case, by Chantelle.

**7** We package EACH and EVERY order with great love and care to make sure your town looks AWESOME on textile and sells through. Maps everywhere.

**6** Post-production sewing is done in a timely manner - you have a short selling season! We get it!
